ATS™

THE MOST REALISTIC TRAINING SIMULATOR, EVER.

FleetMaster6 - NG™

THE MOST REALISTIC TRAINING SIMULATOR, EVER.

The FleetMaster6-NG™ simulator is purpose built for those organizations wishing to offer high-fidelity simulator training using our premier simulator model. Featuring a 270° 6-monitor sight-system, head-tracking technology, actual OEM components and the industries most-advanced motion platform, the ATS Fleet-Master6-NG represents the pinnacle of simulator training and equipment.

High-fidelity Training

Purpose-built in-house, from hardware to software, the FleetMaster6-NG represents the pinnacle of simulator training. Featuring technology and training exclusive to ATS simulators, the FleetMaster6-NG is the most advanced, yet easy to use commercial training simulator.

Designed for Drivers

Targeted, self-paced training. Modular and rugged design. The FleetMaster6-NG Simulator features the commerical transportation industries most advanced training platform, all built with OEM components, so you can train with confidence for years to come.

Actual OEM Parts

The ATS-simulator design includes our patented hardware package; Original pneumatic seat, OEM Steering column and controls, and original OEM pedals for enhanced realism. The FleetMaster6-NG provides higher reliability with improvements to shift-feel, behavior, and haptic feedback.

Patened Technology

Each training module includes driver measurement software, interactive and adaptive Computer based training and statistical analysis. Integrated with Amazon AWS and industry-leading hardware, the FleetMaster6-NG is versatile and robust, yet still user-friendly.
